

Justin Wooley

Experienced Technology Professional with Healthcare Background

Compassionate army veteran with robust technical background. Professional experience in medicine, FinTech, and software. Strong advocate for mental health, wellness, and accessibility.

WORK EXPERIENCE

Software Engineer @ 100Devs — Remote

2022 - 2023

- Contributed to various open source projects, collaborating with developers from around the world.
- Worked independently as a software consultant, developing web solutions for small businesses and startups.
- Projects include sendou.ink, a site for competitive Splatoon 3 (video game) with 20k+ registered users.

Operations Manager @ Trybe Payment Solutions — Fort Worth, TX (Remote)

2022 - 2022

- Created policy/SOP infrastructure for early-stage startup.
- Managed equipment tracking, technical support, liquidity reporting, compliance, and more.
- Oversaw the build and launch of our own in-house point-of-sale mobile application.
- Implemented data-driven approach to identify common technical support issues, improving customer satisfaction polling in on-boarding questionnaires.

Senior Merchant Service Analyst, Bank Officer @ PlainsCapital Bank — Dallas, TX

2017 - 2022

- Oversaw risk management and liquidity operations for the 13th largest bank in Texas.
- Provided business data analysis, and comprehensive financial reporting to clients.
- Provided internal reports to guide and inform sales goals, and marketing.
- On-boarded and maintained our portfolio's largest customer, at \$30 million/year

68W Combat Medic @ United States Army

2011 - 2017

- Served as a squad leader over a battalion aid station, performing emergency medical procedures as well as routine patient care, vaccinations, and assessments.
- Received comprehensive mental health care training, and taught specialized programs focused on suicide prevention and PTSD awareness to fellow soldiers.
- Provided immediate crisis intervention and emotional support for soldiers experiencing acute mental health challenges.
- Participated in an overseas training program at USAG Hohenfels designed to prepare soldiers readying for deployment.
 - Recipient of the Texas Adjutant General's Award for exceptional service/achievement

TECHNICAL PROJECTS

Camera in Position — *Developer*

HTML | CSS | Firebase

github.com/justintricate/camera-in-position

- Created a tool for the game “Rainbow Six: Siege” to better players in their gameplay.
- Served over 25,000 visitors since the site’s inception, with over 150,000 pageviews.
- Collaborated with content creators and community-at-large to gain feedback and improve the tool.
